

Quick Assessment Report

April 14, 2009

Study Region : Sedgwick County, Kansas
Scenario : Level 1 Flood
Return Period: 100
Analysis Option: 0

Regional Statistics

Area (Square Miles)	999
Number of Census Blocks	11,107
Number of Buildings	
Residential	171,899
Total	185,363
Number of People in the Region (x 1000)	453
Building Exposure (\$ Millions)	
Residential	22,293
Total	31,548

Scenario Results

Shelter Requirements

Displaced Population (# Households)	46,547
Short Term Shelter (# People)	127,726

Economic Loss

Residential Property (Capital Stock) Losses (\$Millions)	2,936.25
Total Property (Capital Stock) Losses (\$ Millions)	5,654.29
Business Interruptions (Income) Losses (\$ Millions)	56.47

Disclaimer:

Totals only reflect data for those census tracts/blocks included in the user's study region.

The estimates of social and economic impacts contained in this report were produced using HAZUS loss estimation methodology software which is based on current scientific and engineering knowledge. There are uncertainties inherent in any loss estimation technique. Therefore, there may be significant differences between the modeled results contained in this report and the actual social and economic losses following a specific flood. These results can be improved by using enhanced inventory data and flood hazard information.
